**THE AURABEAT**

Air quality and pathogen control  
for Care Environments

IMPROVING YOUR  
**AIR QUALITY**  
AND REDUCING  
**VIRUS**  
**INFECTIONS**

## The Aurabeat Range - Air Quality Control for Care Homes

The Aurabeat range has been designed with the you in mind. Whether you need local virus protection for a car or personal space or a larger, multi-occupancy room, there is an Aurabeat to keep you, and those around you safe, and breathing clean, healthy air.

### The Aurabeat Portable

Personal protection for your desk, office or car

**Air quality control for your car, desk and personal space.**

- Laboratory tested as being 99.9% effective against Covid in 30 minutes for the average car
- 4 in 1 filter system. Including Silver ion to eliminate viruses, bacteria and fine particles
- Takes up minimal space on a desk or in work area. Fits in the cup holder of a car.
- Air quality indicator

### The Aurabeat Cube

The clean air solution for small to mid size areas

**Air quality control for smaller rooms, offices and work spaces.**

- Laboratory tested as being 99.9% effective against Covid
- 4 in 1 filter system. Including Pre filter
- AG + Silver Ion Antiviral Air Filter, traps and destroys viruses
- Ionizer traps dust, allergens and other free floating particles
- Activated Carbon Filter for fresher air

# The Aurabeat Vertical

With its **5 in 1 filtration process, air quality indicator and built in silver ion anti-viral protection**, the Aurabeat Vertical is the cost-effective, reliable and non-chemical solution to your air quality problems.

The strong, yet unobtrusive, fan draws in harmful pollution and pathogens from the air and rapidly cleans them from your environment. In fact, the Vertical is **fully tested under independent laboratory conditions to eliminate 99.9% of all common viruses** (including Covid-19 and Norovirus). Then, by utilising the **plasma and ultraviolet** options, your Aurabeat vertical will clean and refresh the air. The low maintenance filtration system will also eliminate common fungal and bacterial threats as well as air pollution from traffic and other sources.

Aurabeat vertical gives you the peace of mind of knowing that you are in a healthier, environment...

with clean air for everyone.

SGS testing verified with **99.9% kill rate** of bacteria and viruses

Light touch, easy to use control panel

Air quality indicator

# Why Aurabeat in your care home?

Everyone in the care world dreads an outbreak of norovirus, Covid or flu. A virus infection means potential danger to residents, damage to your reputation, a significant cost increase and can even result in temporary closure.

You may never be able to stop viral infections entering your care home, but with an appropriate Aurabeat solution you can inhibit their spread rate, reduce risk of a major outbreak or even stop one occurring in the first place.

The Aurabeat range features a range of models each suitable for a specific area. Call us for more details of which solution is right for you.

**The Portable**

Virus protection for cars, minibuses, desks and personal space areas

**The Cube**

Multi-filter protection for smaller rooms, offices, treatment areas

**The Vertical**

Larger areas, receptions, offices, dining areas and communal spaces
